SUMMARY

Experienced Flutter Developer with 3+ years in building cross-platform mobile apps using Dart, Firebase, and REST APIs. Skilled in UI/UX design, state management (Provider, GetX, Bloc), and app performance optimization. Focused on delivering scalable, user-friendly, and high-quality mobile solutions through strong problem-solving and collaboration skills.

TECHNICAL SKILLS

Java	Firebase	BLoC
Dart	SQLite	MVC/MVVM
Flutter	Hive	REST API
Android SDK	Git & GitHub	Responsive UI

WORK EXPERIENCE

Ingen Technologies Pvt Ltd subsidiary of WRMS Pvt Ltd, Gurugram

June 2022 - Present

- Built and maintained high-performance Flutter apps for Android & iOS.
- Integrated RESTful APIs, Firebase, and local storage (SQLite, Hive).
- Applied Provider, Riverpod & BLoC for scalable state management.
- Designed responsive, cross-device UIs ensuring smooth UX.
- Collaborated with backend teams for efficient API integration.
- Deployed and managed apps on Play Store & App Store.

PROJECTS

Secufarm Farmer App - Flutter || GoogleMaps API || VideoPlayer API || Frontend Developer

- Built and integrated 12+ dynamic modules including Dashboard, Marketplace, and Plant Doctor.
- Implemented secure login, multilingual support, and live Mandi price updates for better accessibility.

DMS(Driver Monitoring System) App - Flutter || Google ML API || Face Mesh Recognition

- Built real-time face and mesh detection using Google ML Kit to track driver gaze.
- Implemented alert system for detecting distracted or abnormal driver behavior.

Securisk App - Authentication API || Firebase Services || Meta for developers tools

- Integrated secure Google and Facebook authentication using Firebase and Meta Developer tools.
- Implemented robust user login and session management via Firebase Authentication API.

Secuflow(ERP) App - Frontend & Business Logic

- Developed Purchase, Asset, and User Profile modules with optimized business logic.
- Implemented efficient CRUD-based database architecture for seamless data handling.

Secufarm Surveyor App - GEO-Tag || Business Logic

- Developed Survey, Farmer Search, Registration, Bank & Beneficiary Audit, and GEO-Tag modules.
- Implemented responsive UI and business logic for efficient field data management.

EDUCATION

PSIT, College of engineering ,Kanpur

Aug 2014 - July 2018

Dr. A. P. J. Abdul Kalam Technical University, Lucknow

- B.Tech in Electronics and communication.
